ABOUT ME

As part of the Harmsaviation team, I contribute to our shared mission: *"Innovation in compliance"*
With a strong background in auditing and compliance monitoring, I support airlines, ATOs, and aviation investors through advisory services. My focus lies on Flight Operations and Flight Training compliance, CBTA, and regulatory frameworks such as Air OPS 965/2012, Air Crew 1178/2011, but also IOSA standards.
I engage in the development and restructuring of training programs and operational processes, prepare ATO approvals for Non-EASA Member States, and provide consulting in organizational management systems.
